

3. Personal Code of Ethics

- *Transparency: I openly share changes, successes, and challenges—so my team understands both the “why” and the “what.”*
- *Respect: Every voice matters; all team members are encouraged to share ideas and concerns regardless of position.*
- *Accountability: I take ownership of both wins and mistakes, using setbacks as learning opportunities for all.*
- *Data Privacy: I rigorously enforce security protocols and ethical standards when handling customer information.*
- *Non-Discrimination: I treat all individuals fairly, actively fostering an environment free from bias based on gender, ethnicity, or background.*
